The Director of Central Intelligence

Washington, D.C. 20505

National Intelligence Council

NIC 02582-85
20 May 1985MEMORANDUM FOR: Robert M. Gates
Chairman, National Intelligence Council

FROM: [redacted]

Acting National Intelligence Officer at Large

25X1

SUBJECT: Proliferation Conference [redacted]

25X1

1. Several times in recent years this office has sponsored a conference [redacted] that brings policy and intelligence officials together for discussions of the nuclear proliferation topic. These meetings have been very popular, providing as they do, a rather rare opportunity for senior policymakers and intelligence analysts to meet informally for a substantive and broad-ranging examination of issues of common concern. I have scheduled a meeting of this kind [redacted] on 29-31 July 1985, and I request your approval.

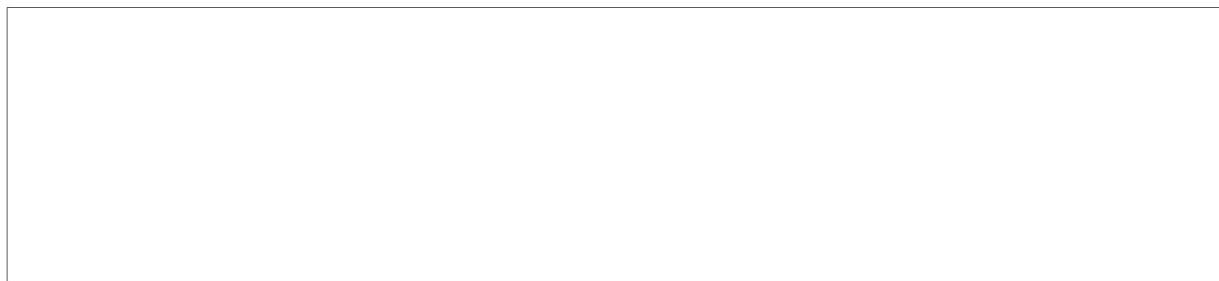

25X1

2. The meeting this year will survey the nuclear programs of five or so of the countries of immediate and major proliferation concern, and will examine some current policy issues such as this year's Nonproliferation Treaty Review Conference and US-Soviet bilateral discussions on proliferation. One session will examine the dynamics over the long term of proliferation issues and US-policy responses to them. No meeting was held last year, but I attach a report on the meeting held in 1983.

25X1

3. We have reserved [redacted] for 29-31 July, and expect to have [redacted] guests. Transportation, meals, and other expenses are expected to be on the order of approximately [redacted]
